"WHAT CAN I DO?"

Many people want to help the war effort, but don't know what they can do. May we suggest...

Carry packages home with you. You have the extra space in your car. Don't expect the merchant to deliver packages you can carry!

If you live in the country, begin now to pool the use of trucks and cars with your neighbors! Most farmers and trucks must be made to last until 1945 or later. Let us present them! Double up with your neighbor! Let one vehicle do the work of two. This is a patriotic duty. There is no use planting a tree, and the only way to get to the markets is with the vehicles in use in Appomattox county now.

Next... have a meeting and set-up an arrangement to pool transportation NOW! Have the meeting after church, next Sunday. It would take a small car-poolage America. Can't you have a meeting one week day or night?

Next... Walk to work, to stores and wherever else you must go. Conserve waste paper, scrap metal and other materials usable in the war effort. Right now Japan is looking for scrap metal. We can't afford to have a meeting one week day or night.

Next... Go to work! This is a time to waste good food! We must work with FRANTIC SPEED but conserve our food on ESSENTIALS. Our suggestion was to take inventory of your own family, and if there is ONE person eating at your table who can be spared... who is not kept busy, who is not earning his keep... then send that person, man, woman, boy or girl, to Blackstone, Radford, Norfolk, or some other war-work area.

Finally, brace yourself for hard work ahead and resolve that each and everyone of us will keep on regardless of what happens this spring and summer.

BREATHES THERE A MAN

"O well for him whose life is strong. He suffers, but he will not suffer long. He suffers, but he cannot suffer wrong."

War summons forth from the

THE OLD BIG STRONG BANK

But strange reports have been coming out of Blackstone. Stories of

that the united strength of a united people should serve her well. To invoke the name of God in an evil cause is blasphemy. To invoke the name of God in America's cause today is the duty and privilege of all who love her.

Let us invoke that name. Let us in all humility turn to the King of Kings for His guidance and His blessing. In this hour of our nation's peril, and in the confident expectation of what we may prove worthy to march with the standard of God in the hand and the Flag of the United States of America in the other.

—Paduch, Ky., Sun- Democrat

LOSING THE CCC CAMP

Naturally, the presence here of a National Park Service CCC Camp was a business asset to certain local establishments, and of value to the long-retarded. Surrender Grounds restoration. Therefore, it will mean some local loss to have the camp to the efficiency of the officer personnel at the camp.

America is at war. So far we have not been on the winning end in the war. If our nation through war, prove, we shall have to negotiate a peace with an enemy.

VALUABLE PUBLIC SERVANT

Day after day and week after week, Harry Flood Byrd, Virginia's Senator, is rendering the sort of public service rarely needed but rarely found.

Senator Byrd is one of the few men in Washington who realize the nature of national wealth. He never spends a dollar on national defense, but he never wastes a dollar on national wealth. He never wastes a dollar on national wealth.

Renew your subscription.

Are you planning a Victory Garden this spring?

Appomattox is a growing town.

NEED WAR PRODUCTION

President Roosevelt has written War Production Chairman Nelson. "The months just ahead are the critical months of the war. Victory depends in large measure on the increased war production we are able to get from our factories and arsenals in the spring and summer months."

Don't worry about the people!

The people of America are one hundred per cent. And most of the too. It's the fact that some of our leaders are one-hundred per cent. of confusion and doubt. It is the fact that some of our leaders are one-hundred per cent. of confusion and doubt.

And so, we are grateful for a real public servant like Senator Byrd.

He manages to keep his head, to put his finger on the weak spots of our government, to offer constructive criticism backed by facts and suggestions for correct procedure.

In this connection we quote from the Charlotte (N. C.) Observer:

"Senator Harry Byrd, of Virginia, is growing in stature in the eyes of the American people. He is independent, courageous, level-headed and immune to the pressures of all parties. Senator Byrd's stand for the consistent reduction of the Federal Government, his refusal to be coaxed or intimidated by labor groups or farm blocs, his exposure of careless and inefficient bureaucracy—all of these, and more, illustrate the character of the man and his intense devotion to the public interest. Along with a few colleagues, Senator Byrd is unique in the American Senate. He is a statesman!"

Labor At Blackstone

We have not been to our nearby town of Blackstone since its sudden location of Camp Pickett. We remember Blackstone as one of Virginia's most delightful pre-war communities, a town of solid citizens and ideas.

But strange reports have been coming out of Blackstone. Stories of

AAA HEAD SAYS CRIMSON CLOVER SEED IMPORTANT

Must Save Our Own, Important Seed Unavailable

Large supplies of crimson clover seed will be needed this fall. One-half of the crimson clover seed used in this country is imported, but that source is not available. Home-grown seed must be saved to supply the expanded need for increased seedings of leguminous winter cover crops to protect land from erosion and leaching, and supplement the commercial nitrogen source that is being extensively used in the manufacture of explosives. It is believed that sufficient combines are on hand to harvest the crop. The Virginia farm to assure the harvest of many times more crimson clover seed than is normally saved.
